FIRS PRESIDENT

SABATINO ARACU

The World Roller Games are a project that has been taking shape for many years in the FIRS: a great determination and a great courage have contributed to realize this first edition, possible also thanks to the deep relationship between the FIRS and the City of Nanjing, its rulers and its citizens. With these premises we are sure that the World Roller Games will leave an indelible trace in the history of world skating and in the city of Nanjing. It had never happened before in any place: for the first time, the Gotha of the World Skating will compete here.... at the highest levels.. and in excellent facilities! The agonistic results of the event will certainly go far beyond expectations and will match up with the audience that will warmly embrace our athletes with the well-known Chinese hospitality.

Nanjing is a city to discover, with its millenarian culture and its amazing fascination: I am sure that these thousands of athletes and coaches, who will come from all over the world for this historic event, will be able to enjoy this wonderful city and the wonderful opportunities that it will disclose.

And let's not forget the many supporters that will convey in the ancient capital from August 26 to September 10 to admire the best FIRS athletes competing for world titles.

The citizens of Nanjing will be able to appreciate all our disciplines, some of which they have already known in the past years, during the YOGs of 2014 and during the 2016 Speed Skating World Championships: the Roller Games will be a further bond in the legacy that FIRS and Nanjing, the first World Capital of Roller Sports, are building with passion and fervor.

And it is with great pleasure that on my behalf, on behalf of FIRS and on behalf of the enthusiastic skating world, I welcome all those who will participate in this first historic edition of the FIRS World Roller Games.

NANJING MAYOR'S GREETINGS

Ladies and gentlemen,
Friends from the media,

After nearly a year of diligent preparations, the time has finally arrived to hold FIRS World Championships - Roller Games 2017. On behalf of the Nanjing Municipal People's Government and the Organising Committee for WRG 2017, I would like to warmly welcome all our friends from the media who have come here from all over the world.

Nanjing is a world-famous city known for its time-honoured history and culture. Situated in the eastern part of China, it is also a central city and a megacity marching towards modernisation and internationalisation. This land boasts a unique blend of ancient appeal and modern civilisation. This is where profound culture and youthful vigour integrate. Roller sports are youthful, fashionable and healthy urban sports that integrate recreation, physical activity, competition and leisure. These sports are becoming popular among people from all walks of life, particularly the youth.

Roller sports were highly praised by IOC President Thomas Bach when they were presented during the Sports Presentation Programme of the 2nd Youth Olympic Games held in August 2014 in Nanjing. That was the time when Nanjing developed a bond with roller sports. In September 2016, the FIRS Roller Speed Skating World Championships successfully took place in Nanjing. Our city stood out as the first holder of the title - "World Capital of Roller Sports" – as conferred upon by the FIRS. This September, the FIRS World Championships - Roller Games 2017 will make its debut in the same city. We will see athletes gathering in this ancient capital from all over the world to share the joy of roller sports and jointly create a brilliant future for these sports. We believe that with the strong support of the FIRS and through extensive coverage by the media, Nanjing will surely deliver an excellent and splendid gala of roller sports to their global fans.

I wish the Games a complete success and all of you a pleasant stay in Nanjing.

MIAO

Mayor of Nanjing Municipal People's Government
President of the Organising Committee for WRG 2017

THE CITY OF NANJING

Nanjing - City of Emperors

Nanjing is a city situated in the heartland of the lower Yangtze River region in China, which has long been a major centre of culture, education, research, politics, economy, transport networks and tourism. It is the capital city of Jiangsu province of People's Republic of China and the second largest city in the east China region. The inner area of Nanjing enclosed by the city wall is Nanjing City (南京城), with acreage of 55 km², while Nanjing Metropolitan Region includes surrounding cities and areas.

Nanjing has a prominent place in Chinese history and culture, having served as the capital of various Chinese dynasties, kingdoms and republican governments dating from the 3rd century CE to 1949. [6] The city has a number of other names, and some historical names are now used as names of districts of the city; among them there is the name Jiangning or Kiangning (江寧, literally "Yangtze's Peace"), whose former character Jiang (江, River) is the former part of the name Jiangsu and latter character Ning (寧, simplified form 宁, Peace) is the short name of Nanjing. When it was the capital of a state, for instance during the ROC, Jing (京) was adopted as the abbreviation of Nanjing. It first became a Chinese national capital as early as the Jin dynasty, and the name Nanjing was officially designated for the city during the Ming dynasty, about a thousand years later.[7] Nanjing is particularly known as Jinling or Ginling (金陵, literally "Gold Mausoleum") and the old name has been used since the Warring States period in the Zhou Dynasty.

Go to <http://www.cityofnanjing.com/> and discover one of the greatest capital cities of ancient times.

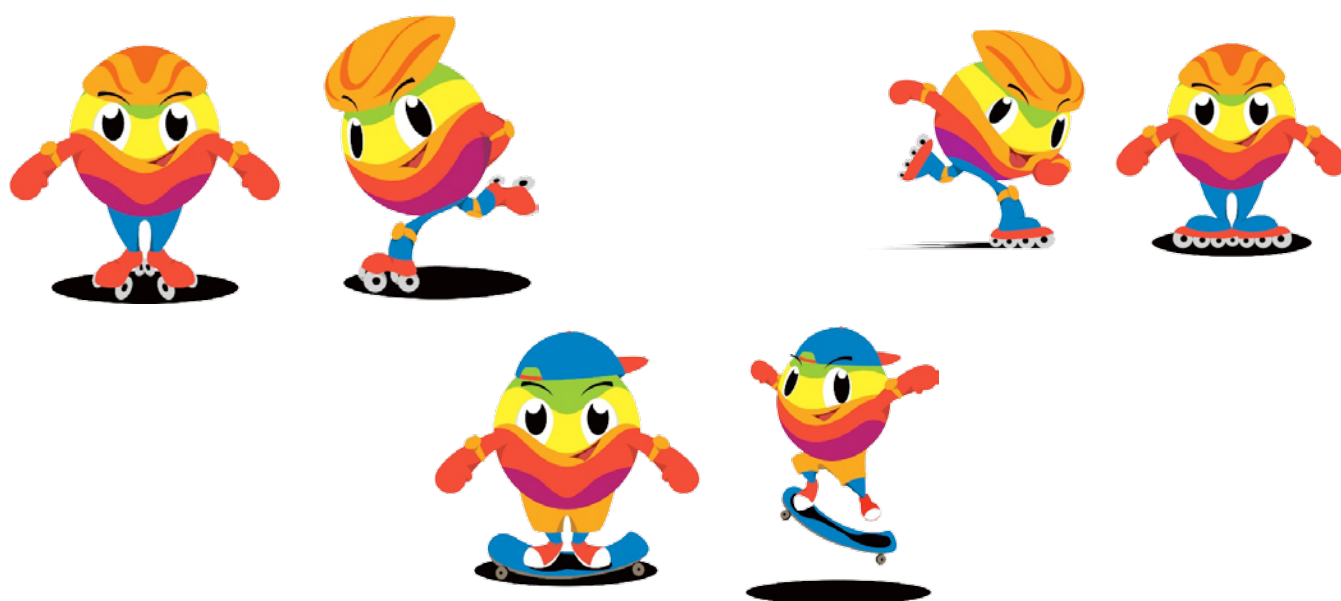

Nanjing - World Capital of Roller Sports

During the 2014 YOG, Roller Speed Skating and Skateboarding have been showcased in the SportsLab, and the popularity of the FIRS sports with the youth was so impressive that the Nanjing Bureau of Sport, together with the Mayor, decided to invest on a 5-year partnership with FIRS. Nanjing has been awarded the title of World Capital of Roller Sports and the Institutions are investing a lot on the success of the first edition of the World Roller Games 2017.

MASCOT AND EMBLEM

Ningning - The 2017 WRG Mascot

Ningning is short for Nanjing, and shaped from Nanjing Yuhua stone. Ningning takes orange as the based color, wearing a full set of roller skating professional equipments, and it is like sunshine giving light, hopes to people. It fits perfectly to roller skating, the young and energetic sports pursuing speed and skills. Nanjing Yuhua stone is a symbol of global roller skating children become indomitable after tempering. It is just like Nanjing Yuhua stone glows with beautiful style after thousands of years of tempering. In addition, the skating world championships set up three individual mascots.

2017 WRG Emblem

The emblem design takes Nanjing city flower and the logo of FIRS as the main creative graphic. The simple and concise design fits the characteristics of the tournament hosted in Nanjing, taking dynamic fashion, harmonious health as the design theme.
